IRELAND AND THE SPANISH EMPIRE, 1600-1825

Óscar Recio Morales

This book covers this complexity of Irish migration to the Spanish empire, from 17th-century Hapsburg Spain to 18th-century Bourbon Spain, from Europe to the new World, from Madrid, Brussels or Cadiz to Havana, Lima and Chile. Even though Ireland did not form part of this empire, the contribution of Irishmen and Irishwomen to this multinational empire was remarkable. The Irish 'nation' played a key role in the army, commerce, medicine, literary life and 18th-century Spanish Enlightenment.

384pp; Hardback.

Retail: €65.00 **Sale: €45.00**

IRISH INFLUENCE AT THE COURT OF SPAIN IN THE SEVENTEENTH CENTURY

Igor Pérez Tostado

'This book is a reminder of how important mainland Europe was to Ireland and how it was a destination for emigrants and exiles before the great famine turned our orientation towards America and elsewhere ... [Pérez] Tostado's is a well written and thoroughly researched work that adds a lot to our understanding of this period of Irish history ... [he] has added another dimension to the historiography of seventeenth century Ireland.' Tony Canavan, *Books Ireland*

224pp; Hardback.
ISBN: 978-1-84682-110-3
Retail: €55.00 **Sale: €40.00**

IRELAND AND SPAIN IN THE REIGN OF PHILIP II

Enrique García Hernán

'García Hernán has unearthed a wealth of new, previously-unpublished material regarding this remarkable and often-misunderstood monarch ... the principal virtue of this book resides in its exhaustive analysis and contextualization of the forces, events and personalities that influenced the evolution and subsequent development of Philip II's policy concerning Ireland ... replete with fascinating anecdotes ... this is a rare book, and one which will be enjoyed by specialists and the greater reading public alike.'
